

# Optovue Performance Protection Plan

**Thank you for choosing an Optovue instrument for your practice.**

Perhaps one of the reasons you did so was that it comes with industry-leading customer service and support—including phone and online support at no additional cost for five (5) years from new system installation.

To further secure your investment, **consider the Optovue Performance Protection Plan.**

It provides extended coverage for users seeking:

- **Maximum uptime**
- **Finely tuned performance and functionality**
- **To avoid “surprise” service bills**
- **Greater peace of mind**

## Optovue Performance Protection Plan Features

- **Parts and Service**

You get full coverage for all onsite service, replacement parts and shipping costs for getting parts to your practice.

- **Periodic Maintenance**

You'll receive one preventative maintenance visit per year. Just contact Optovue to schedule your annual visit.

- **Remote Support**

You receive unlimited phone and online support. Simply provide internet access so the Optovue Technical Support Team can remotely access your instrument.

- **Software Updates**

Regular software updates are provided to keep your technology current and secure.\*

- **Flexible Timespan**

Plan pricing is annual, so you can buy increments of anywhere from 1 to 5 years. This not only allows you to lock in the current pricing, but also to access discounts for multiyear agreements.

## Optovue Performance Protection Plan Annual Pricing
